

Helicopter

MAINTENANCE

The ONLY Magazine for

Helicopter Maintenance Professionals

2016 Media Kit

Helicopters are a flexible tool for many different types of services including EMS, search and rescue, news gathering and more. But there is no doubt that in order for helicopters to fulfill their mission, they need to be properly maintained!

That's where *Helicopter Maintenance* magazine steps in. Our mission is to be the source of information for the thousands of maintenance professionals that keep helicopters flying. *Helicopter Maintenance* magazine continues to be the ONLY magazine with a 100-percent maintenance focus — content and circulation.

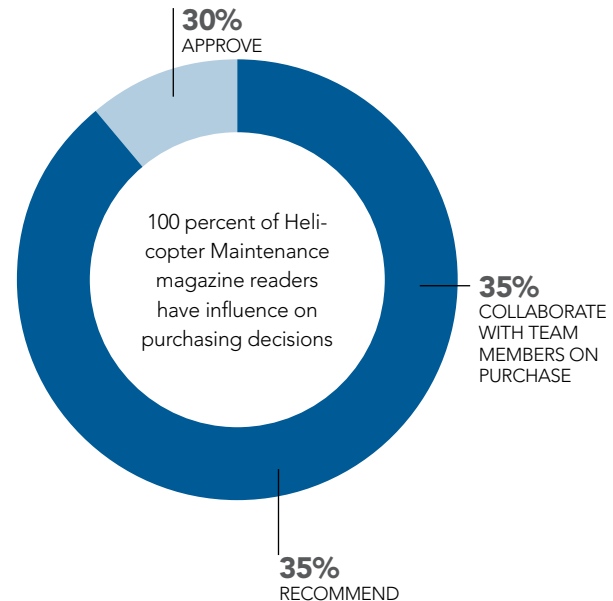

We deliver your message to the largest number of helicopter maintenance professionals, with more maintenance-related editorial content than any other magazine – bar none.

Helicopter Maintenance Magazine = 100% Maintenance

READERS

Helicopter Maintenance magazine readers have maintenance titles and work at helicopter maintenance facilities.

— more than 1,000

The *Helicopter Maintenance* editorial advisory board, a team of industry professionals, helps steer the editorial direction of *Helicopter Maintenance* magazine, offering advice on industry trends and helicopter maintenance topics of interest while giving feedback on each issue we publish.

The *Helicopter Maintenance* editorial advisory board consists of:

Randy Davis-Yates is an Arizona native who has worked on helicopters in a wide variety of environments — everything from service centers, news agencies, EMS operations, corporate aircraft and now law enforcement. He has been with the Maricopa County Sheriff's Office Aviation Division for 10 years and currently acts as its chief helicopter mechanic. He is a licensed A&P mechanic with IA.

Terry Peed is the chief inspector for Helicopter Specialties, Inc., a helicopter repair station in Janesville, WI. Peed started his aviation career 44 years ago when he joined the Navy and was trained as a jet engine mechanic, assigned to maintain F-8 Crusaders and F-4 Phantoms. Peed holds an A&P certificate with inspection authorization. He received an Associate of Science Degree from Embry-Riddle Aeronautical University extension classes in 1999.

Danny Green is an A&P with an IA and the aviation vibration data analyst for Chevron, Gulf of Mexico Aircraft Operations located in Picayune, MS. He monitors 16 aircraft daily, including AW139s, Bell 430s, Bell 427s and soon-to-be two Bell 429s.

Dana Kerrick started working aircraft maintenance in the United States Air Force in 1959. He holds an FAA repairman certificate on rotor blades and ground instructor certificates for basic, advanced and instrument ratings. He has been a chief pilot instructing in airplanes and helicopters since 1970. He is presently vice president of International Aviation Composites Ltd. in Fort Worth, TX.

Jon Robbins has been an A&P mechanic for 31 years. He holds IA and private pilot and instrument airplane ratings. He supervises the helicopter maintenance program at CAL FIRE (California Fire Aviation Management Unit).

Edward Jerin joined Era Med LLC in 2008 as the aviation maintenance manager for its Boston Med Flight critical care transport service contract. It operates one S76 C++ and one BK117 C1 helicopter based at Hanscom Air Force Base in Bedford, MA. It also operates one BK-117 C1 helicopter out of Plymouth Municipal Airport in Carver, MA.

Mike Broderick Mike has been an A&P Technician since 1971. During his career he has worked as a shop and hangar technician; field tech and customer rep, and owner of a Part 145 engine overhaul facility. He was also the VP of Business Development at H.E.R.O.S. Inc., which is a Part 145 repair station for the Rolls-Royce 250 engine, and a Honeywell fuel system overhaul agency. His specific experience is in turbo-shaft engines in light to medium helicopters. The one he is most familiar with is the Rolls-Royce (formally Allison) 250 series engines. Mike is currently employed at TRACE Worldwide Corp., as its business development specialist.

Helicopter Maintenance Calendar

Helicopter Maintenance magazine's annual wall calendar has proven to be one of the best "bangs for your buck" — it's a full month of exposure for your company in helicopter maintenance hangars and offices around the country.

Reserve your calendar page today and have your company's message on the wall for a whole month.

The *Helicopter Maintenance* calendar mails with the November/December issue. Get your message on more than 5,000 calendars for only \$1,500.

Stickers

Your message will stick around for a long time!

Sticker Stats:

Issue: February/March

How many?: Over 6,000 printed — 5,000 plus in the magazine and 1,000 for your use.

Deadline: We will need your sticker artwork by January 15, 2016

Your total cost per sticker is \$1,995.

Four-Page Brochures

Are you considering printing new company brochures for 2016? Let us print your brochures and distribute them to our more than 5,000 readers — allowing you to save money on both printing and distribution! We offer high-quality four-page brochures that are printed on 100# stock and mailed with our magazine. The price is \$6,500 which includes an additional 5,000 brochures for you. You can order additional brochures for a nominal fee.

Company Spotlight

Available as a two-page spread in the magazine, our Company Spotlight gives you the opportunity to tell your story to our readers. Company Spotlights are printed within the pages of the magazine issue. Price is \$4,400.

Ride-alongs

Several times a year, *Helicopter Maintenance* magazine offers your company an opportunity to insert promotional pieces (brochure, CD, flyer, etc.) shrink-wrapped with a *Helicopter Maintenance* issue that will be distributed at a trade show.

2016 shows are:

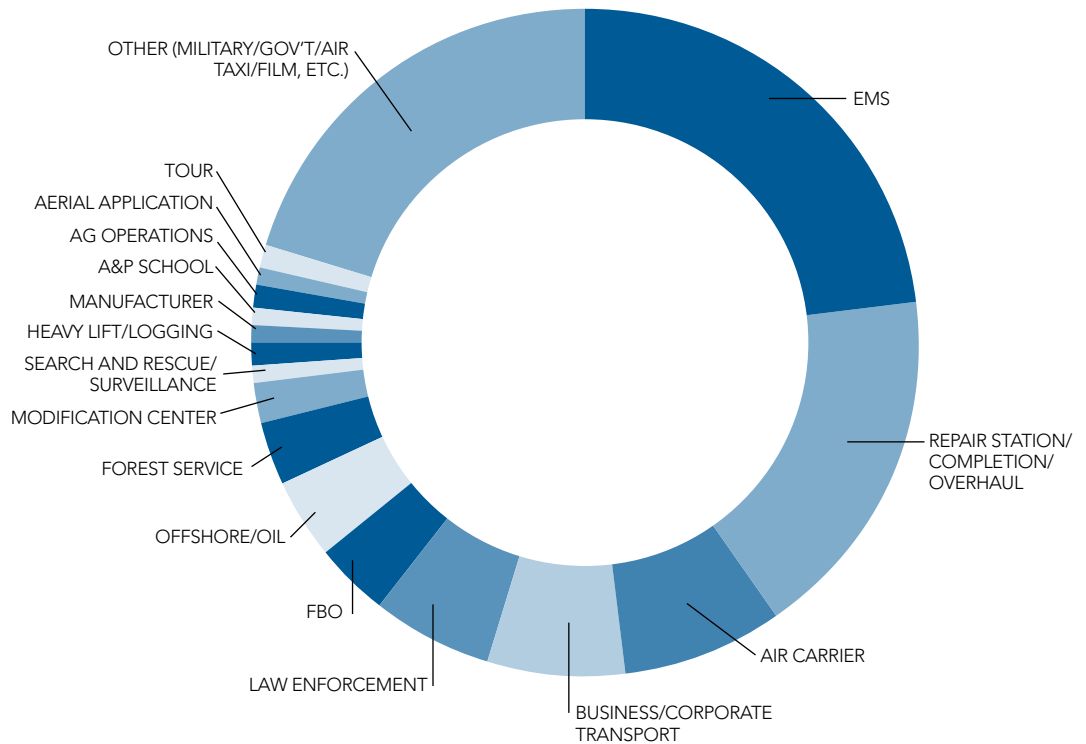

- Heli-Expo
- Airborne Law Enforcement Association Conference
- NBAA2016 Annual Convention & Exhibition

Ad Guidelines

CLIENT GUIDELINES FOR PREPARING ELECTRONIC AD MATERIALS FOR PRODUCTION

PDF

The PDF format is the preferred format for file submission. Careful attention must be paid to the proper creation of PDF files to ensure that they will reproduce correctly.

Please contact your sales representative for specifications on creating proper PDF files.

ACCEPTED NATIVE PAGE FILE FORMATS

Page Layout Application – InDesignCS, QuarkXPress. *Helicopter Maintenance* accepts current versions of InDesign and QuarkXPress files. Ads should be created to correct ad size dimensions. If you are unsure of the ad size, please contact us.

Vector Art Programs – Adobe IllustratorCS, Macromedia Freehand. *Helicopter Maintenance* accepts current versions of Adobe Illustrator files, and Macromedia Freehand 9. Files should be saved as an “Illustrator EPS” or as an “editable EPS” in Freehand. Supply all final vector EPS files that are used within the page layout application.

Photo Imaging Programs – Adobe Photoshop CS. *Helicopter Maintenance* accepts current versions of Adobe Photoshop files. We prefer four-color images be saved as composite TIFF files or, if a clipping path is being used, as an EPS file. Supply all images as either CMYK or grayscale high-res (300 dpi) images. Black-and-white line art should be in bitmap TIFF (1,200 dpi) format.

FONTS

Use Postscript Type 1 fonts and include both the appropriate screen and printer fonts that are used in the page file. Avoid using TrueType fonts. Do not apply style attributes to fonts from within page layout application. LaserWriter “City” fonts (i.e., New York, Geneva, Chicago, etc.) cannot be used in production. There are no matching printer fonts. If any customized fonts are used in page files or fonts are used in vector EPS files, both the screen and printer fonts must be supplied.

PAGE FILE PRINT OUTS

Supply final color or B&W laser printouts at actual size (100 percent) with no corrections noted. If the image area in the page file exceeds the size of a laser, the customer should maintain 100-percent output. Tiled proofs can be submitted. If a reduced-size laser is provided, it should be clearly noted.

If possible, it's beneficial to output final printouts with “registration marks.” This places crop marks on the edges of the file, and also prints the name of the file at the top of the page. Note any special instructions directly on your provided laser proofs. If fifth or spot colors (actual PMS color) are to be used, they should be indicated clearly.
